SKILLS

Programming languages: C, C++, Golang, Python, SQL, and Java

PROJECTS

Extracting Amplicon Reads from a Whole Shotgun Metagenomic Dataset (Python, SQL, Shell)

[\[Code\]](#)

- Designing, building, and maintaining the database.
- Created scripts and designed algorithms for sorting and sequencing.

Sharded K/V storage system (Go, Python, Shell)

[\[Code\]](#)

- Implemented Raft protocol and built a fault tolerant Sharded K/V storage system on it.

Distributed MapReduce (Go, Python, Shell)

[\[Code\]](#)

- Implemented a Distributed MapReduce model.
-

WORK EXPERIENCE

University of New Hampshire College of Engineering and Physical Sciences

Teaching Assistant.

Durham, New Hampshire

September 2021- Present

- TA for 1 undergraduated-level and 1 graduate-level CS courses.

University of New Hampshire College of Engineering and Physical Sciences

Programming Assistance Center Consultant.

Durham, New Hampshire

September 2021- Present

- Programming Consultant, helping students with coding.

University of New Hampshire College of Engineering and Physical Sciences

Computer Science Grader

Durham, New Hampshire

February 2021- June 2021

- Grader for 2 computer science courses.

University of New Hampshire Dining Service

Food Serve Assistant - Student

Durham, New Hampshire

August 2020 - December 2020
